

**WHAT YOUR PEERS SAY ABOUT
MANACE PROFESSIONAL DEVELOPMENT
SESSIONS ...**

Excellent information, practical and useful.

Probably the most useful computer course I
have ever attended.

Lots of "hands-on" activities. Was able to
copy material for use in my classroom.

Excellent instructor! Very relaxed, very
informative. An excellent experience.

A must for every teacher, hands on skills.

This was an awesome workshop, with an
awesome instructor. I learned lots and can't
wait to go back and try it!

Lots of ideas. Variety of ways to integrate
this.

The best SAG session I have ever
attended!

MANITOBA'S INNOVATIVE COMPUTER EDUCATORS

ANNUAL SAG AND SUMMER CONFERENCES

SAG conferences are usually held on the third Friday in October. Summer conferences are typically held in early July.

During these conferences ManACE offers numerous workshops related to the integration of technology with curricula. These workshops are designed to address the needs of novice to advanced users.

T.I.N.'s TECHNOLOGY INFORMATION NIGHTS

ManACE hosts social evenings during which members have the opportunity to network with colleagues, gain insights into new applications/software and keep current with new directions in the field of educational technology.

MANACE JOURNAL

Included in your membership and published three times a year, the ManACE Journal provides information on current applications, projects, web sites and articles.

TECHNOLOGY SEED GRANTS

These grants are intended to assist schools with the enhancement and development of computer technology integration. They are offered on a biannual basis.

MANACE COMPUTER PROBLEM SOLVING CONTEST

ManACE is a proud supporter of Ron Silver's Computer Problem Solving Contest held annually at Sisler High School.

WHO?

A group of Manitoba educators who encourage the use of computers to support learning for students and educators.

WHAT?

A Special Area Group (SAG) of the Manitoba Teachers Society.

WHERE?

Throughout Manitoba

WHEN?

Several times a year

WHY?

To offer support to educators in the field and provide a forum for the sharing of ideas and strategies
